

## **Gift of Grace**

V 1

You name it

You name it

And when you name it make it real

You make the world

When you have a name

It retains from young to old

Dig deep to find the gold

V 2

You saw it

You saw it

You saw the writing on the wall

You see the hand

And though the script is clear

The sound means nothing to your ear

Though the meaning seems so near

Ch 1

Take down the book

Dusty on the shelf

Find the page about yourself

Read the words

Burning

Like fire

In the book of fate

V 3

You read it

You read it  
You read it  
Read the book of fate  
You read the book  
Now you see the stars  
Know they only go so far  
Know the end of peace and war

V 4

You got it  
You got it  
You got it  
Got your gift of grace  
You got the gift  
But you must never tell  
Keep it deep inside yourself  
Like water in a well

Ch 2

Underground  
Streams weep  
Flow steady to the sea  
Sends your senses  
Churning  
Like fire  
Flowing in your veins

V 5

You found it  
You found it  
You found a medal underground

Shiny and round

Put it in the box

Beside the stone from the wall

Next to the leaf from the fall

V6

You got it

You got it

You got it

Got your gift of grace

You got your gift

See it in your face

In the lightness of your step

In the rhythm of your breath
