

Love Will Have to Get By Without Me

Intro

F A Dm Cm Bb C C7

Verse

F Am Dm C Bb C C7

When Sally met Sue it was love at first sight
They moved in together that very night
Bought two little babies from China, they did
When they split up they each took a kid

My friend Joel was a merry old soul
He hooked his wife with a fishing pole
They love the outdoors, and the love each other more
As long as they play they'll never go astray

Chorus

F C Dm Am Bb

Everybody's got somebody but me
I guess that's how it will always be

F A Dm Cm Bb C C7

Until the day you come back to me
Love will have to get by without me

Verse

Barry and Bill are over the hill
They met in '68 and they're together still
Barry's not so steady on his feet anymore
When he topples over Bill lifts him off the floor

Paul and Paulette are like yin and yang
Or is it yang and yang, and is that the same thing?
Paulette went out to get something from the store
When she came home Paul was in her make-up drawer

Chorus

Everybody's got somebody but me
I guess that's how it's gonna be
Until the day you come back to me
Love will have to get by without me

Break (C part)

A Bb C

I miss you so I don't know what to do
Everyone tells me I should find somebody new
There's plenty of good people walking 'round, it's true
Only thing wrong with them is they're not you

Outro
