

## **Stoned Millionaire**

I'm livin' the lifestyle of a stoned millionaire

Got a couple a limos, a gal does my hair

Got a manse on each coast and a private Lear Jet

When it comes to workin' I ain't done yet.

My lifestyle condemns me to a life of hard toil

No vacations for me, my life's on the boil

300 gigs I'll play in a year

To maintain the life of a stoned millionaire.

Crisscrossing this land in my big silver bird

Smokin those contracts, tryin to get heard

Night after night I sing the same songs

They say that I'm rich but I feel like they're wrong

I'm stoned but not slackin' when my lifestyle's at stake

It's time to get crackin' when I practice The Break

There's nobody else can sang like I will

When I'm smoking and drankin, and payin the bills
